Sayf Ahmed

New York, NY • sayf.eddin.ahmed@gmail.com • sayf-eddin.me • linkedin.com/in/sayf-ahmed

SUMMARY

Software Engineer with a strong foundation in building and scaling production systems. Experienced with designing modern end-to-end applications, integrating complex third-party APIs, setting high standards for security and privacy, and closely collaborating with cross-functional teams. Skilled in cloud deployment, monitoring systems, relational databases, and using AI development tools.

WORK EXPERIENCE

Technical Co-Founder *03/2026 - 07/2026*
MHICO *Remote*

- Served as sole technical co-founder of mhico.ai, a health insurance guidance website, creating the core architecture, technology, and product decisions that shaped the company from initial concept
- Maintained the live platform in Django on AWS using Claude Code to accelerate development of dashboard features which helped users understand their health insurance and avoid overpaying due to errors
- Integrated OAuth connections to 30+ payer APIs including Medicare, UnitedHealthcare, Aetna, and Cigna for users to get personalized AI chat assistance, manage claims, and find open enrollment recommendations
- Utilized Claude via AWS Bedrock for chat and document analysis, applying strict data minimization
- Deployed on HIPAA-compliant AWS infrastructure with monitoring/logging, WAF rules, edge-gated reverse proxy, and a security SDLC with 99.9% uptime across weekly zero downtime releases
- Built privacy-by-design safeguards with a transparent privacy policy, end-to-end encryption, mandatory user MFA, data control for users, consent gates for sensitive data, and automated data retention life cycles

Freelance Developer *03/2023 - 03/2026*
Various Clients *Remote*

- Engineered web applications and APIs using Python, Node.js, React, Spring, and OpenAI for clients across data reporting and integration projects
- Collaborated on Astan, an AI cybersecurity system, by managing the codebase and creating product demos for pitch meetings
- Preprocessed and analyzed data in Python using scikit-learn and pandas for an award winning data storytelling avatar creation experience
- Designed EDI file-conversion pipelines (CSV/XML to JSON) integrated via Liaison Delta for ~20 clients

Front-End Developer *09/2021 - 12/2022*
Hogarth Worldwide *New York, NY*

- Composed time-sensitive marketing assets for 300+ campaigns for The Wall Street Journal, MarketWatch, and Barron's, supporting engagement with ~4,000,000 readers
- Developed PHP/JavaScript modules for wsjpro.com on WordPress for premium users and composed shop pages with JavaScript and Webpack to increase subscriptions and bundles sales

Full-Stack Developer Intern *06/2020 - 05/2021*
Syracuse University Division of Marketing and Communications *Syracuse, NY*

- Assisted with upgrading virtual systems and dashboards through scripts and web applications which affected ~15,000 WordPress sites for university branding, faculty, and students

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, C++, SQL, HTML5, CSS, PHP
Frameworks: Django, Flask, HTMX, React, Tailwind, Node.js, Spring, Bootstrap, pandas, scikit-learn
AI & Cloud: Claude Code, AWS (Infrastructure, Intelligence, Operations), Docker, Microsoft Azure, OpenAI
APIs & Data: RESTful API, OAuth 2.0, PostgreSQL, CI/CD, Ansible

EDUCATION

B.S. in Computer Science, Minor in Cognitive Science
Syracuse University, Magna Cum Laude
